

The Managing Editorial Team of *Imaginations* is seeking a French Editor.

The term is 3 years with the option to renew. This is a non-remunerated position. It requires approximately 10 hours of work a month, with some of this time concentrated around periods of intensity linked to identifying and securing peer-reviewers for upcoming issues, and around the publication and launch of issues, when the oversight of translations are required. Other duties would include promoting the journal to the French-speaking international academy and taking on modest editorial responsibilities (largely linked to corresponding with and guiding guest-editors) for specific upcoming issues on a rotating basis.

- *Imaginations* is an international academic journal, published twice yearly.
- All submissions are subject to a double-blind peer-review process.
- Based out of Canada, the journal has a mandate to publish multilingual, open-access scholarship on visual cultural studies in English or French, as well as in the original languages whenever possible.
- *Imaginations* is a knowledge democracy project, and committed to being free to submit to and free to read.
- Founded at the University of Alberta in 2010, the journal is funded by the federal granting agency of the Social Sciences and Humanities Research Council of Canada (SSHRC).
- *Imaginations* showcases artistic work and scholarly research. It focuses on innovative artistic practices and interdisciplinary, intercultural theoretical understandings of images, screens and visual culture.
- The journal provides an online installation venue for original artwork and publishes academic articles in original languages and translated into French or English.

For more details about the journal, please see the journal website at:
